### OBJECTIVE:

---

Highly motivated Web Developer with experience in building and maintaining web applications. Proficient in HTML, CSS, JavaScript, and with expertise in JavaScript Library like React.js . Seeking to join a dynamic team where I can utilize my skills to help drive the success of the organization.

### PROFESSIONAL EXPERIENCE:

---

#### Web Designer

Developed and maintained web applications, resulting in increased user engagement and improved user experience.

- Strong understanding of UI/UX principles.
- Expertise in responsive and mobile-first design.
- Knowledge of color theory and typography.
- Ability to create intuitive and user-friendly interfaces.

#### Web developer

Assisted in the development and maintenance of web applications, resulting in improved functionality and increased user satisfaction.

- Proficient in HTML, CSS, JavaScript
- Skilled in responsive and mobile-first design.
- Experience with front-end frameworks (e.g., React).
- Expertise in cross-browser compatibility and web standards.
- Familiarity with version control systems (Git).

### RELEVANT PROJECTS:

---

#### E- Commerce

- I developed a full-featured e-commerce platform using React.js, implementing responsive design for compatibility across devices. I built reusable and scalable UI elements with React components and integrated API services for dynamic data handling.

#### Interior design

- Developed an interior furniture project using React.js, emphasizing responsive design principles and creating interactive user interfaces to showcase product catalog and features.

**Portfolio :** I have also created my portfolio
